DESIGN OF THE INSTITUTION.

The object of this institution is to furnish the sick poor with medical attendance and medicine gratuitously, to diffuse vaccination by unwearied and continuous effort, and to accomplish this work in the most faithful manner, and at the least possible expense.

MEANS OF SUPPORT.

The Dispensary is supported by the income from a fund, derived mainly from the Chicago Relief and Aid Society, of eleven thousand dollars, invested in safe securities; by a small contribution from Rush College, derived from the income of a fund bequeathed for the purpose by the late John Phillips, Esq., and held in trust by the Trustees of the College. The County of Cook, through the Honorable Board of Commissioners, in consideration of services to the county poor of the West Division, has contributed \$900.00 for the current year.

Donations will be thankfully received by Dr. Philip Adolphus, Financial Superintendent, No 638 West Washington Street.

INVITATION TO VISITORS.

All who desire to obtain personal knowledge of the necessity of such an institution, its practical benefit to the sick poor, and its claims on the liberality of our citizens, are invited to visit the Dispensary and judge for themselves.

LOCATION.

The Dispensary is located at the corner of Harrison and Wood Streets.
OFFICE HOURS: 11 to 12 A. M. and 2 to 5 P. M., daily, excepting Sundays.

REPORT.

[The Statistical Matter of this Report Closes with the 30th of June.]

The work of the CENTRAL FREE DISPENSARY OF WEST CHICAGO during the year covered by this report, has been steady, continuous and satisfactory.

The whole number of patients treated has been a little over nine thousand—less by three thousand than the previous year. and the number of visits to the Dispensary by patients (19,028) has been correspondingly less. The visits of the physicians to the homes of patients (3,065) have, however, nearly equalled in number those of the previous year.

The falling off in the number of cases has doubtless been due to two causes; the greater care on the part of the Staff to restrict the work of the charity to those really entitled to its services, and the greater prosperity of the working classes.

The year has been, for the City of Chicago, one of unusual exemption from small-pox, and, as a consequence, less than a hundred applications for vaccination have been received.

There has been a trifling increase in the number of births attended, much less than might have been expected, considering the efforts of the Obstetrical department to furnish attendance to all poor women in confinement, who ask for it. The people being generally ignorant of the effort referred to, it is hoped the friends of the poor will endeavor to give publicity to it, so that the services of the Dispensary may not be lost to one of the most deserving classes of suffering women.

The lessened number of patients has not, unfortunately, caused a lessened consumption of drugs, the number of prescriptions furnished during the year having reached the formidable number of 26776— an increase of nearly a hundred over the previous year. As a consequence the expense for drugs has been very large.

The Honorable Board of County Commissioners have voted \$900 to the Dispensary, in consideration of attendance upon the County poor of West Chicago.

The finances of the institution have been conducted upon the same economical basis as heretofore. Nothing is allowed for the services of the

Staff, the income being devoted to expenditures for drugs, instruments, rent, heating, janitor and apothecary.

Without the voluntary contributions of citizens, the work of this charity must have been greatly abbreviated. A different experience for the current year cannot be hoped for. The efficiency of the Dispensary must depend largely upon the liberality with which the friends of the poor remember its burden and its labors.
